

Steering Committee Meetings
Central Florida Woodturners
Casselberry Denny's June 18, 2009

As there were only three steering committee members at the meeting, no formal meeting was held. However, purchasing a new sound system was discussed. Bob Walker will recommend the purchase to the membership at the June 18th meeting.

Membership Meeting
Fern Park Woodcraft
June 18, 2009

Bob Walker called the meeting to order. Thirty-four people attended including 1 guest, Jordan Pilcher.

Bill Dalton reported a net balance of \$5313.22 in the club's account.

Rick Coffman brought to the meeting a wireless sound system for demonstration purposes. The audio quality and ease of use were excellent. Several members commented this was the first time they could hear the meeting and demonstration. Our thanks go to Rick for doing the research to come up with this system.

Bob Walker recommended that the club purchase a sound system of the type being demonstrated. The cost would be \$976.00. Because of the price, the purchase would have to be approved by a vote of the membership at this meeting and the next.

Gene Gross moved that we purchase the sound system. The moved was seconded and the motion was approved by an unanimous voice vote.

The wood auction raised \$14.00 for the club.

Danny Hoffman demonstrated off-center turning using his newly developed chuck called the ShapeShifter. The ShapeShifter adjusts easily to create a very minute on up to a large off-center axis for turning. His excellent demonstration including making a box with four sides and making multi-sided pens. Purchase information is available at:
